positive	negative
On the one hand it was good that Jay and Dave wanted to raise money for a pet charity.	On the other hand it was really stupid that they didn't take the race seriously.
I think Gwen was brave. She is partially sighted and ran in a race!	But it was also dangerous that she ran in the race. She needed Luke to help her.
Jay and Dave's idea to run in pet costumes was funny.	But one boy fell because of them. They were rude because they jumped from right to left and got in the way.
Luke was very helpful and responsible. He helped Gwen to run in the race.	But Luke didn't train enough. He was lazy and then got a cramp during the race.
